

SOGO Squirts Week 6

F is for Friend

Draw yourself and a friend.

What is your favourite activity to do with a friend?

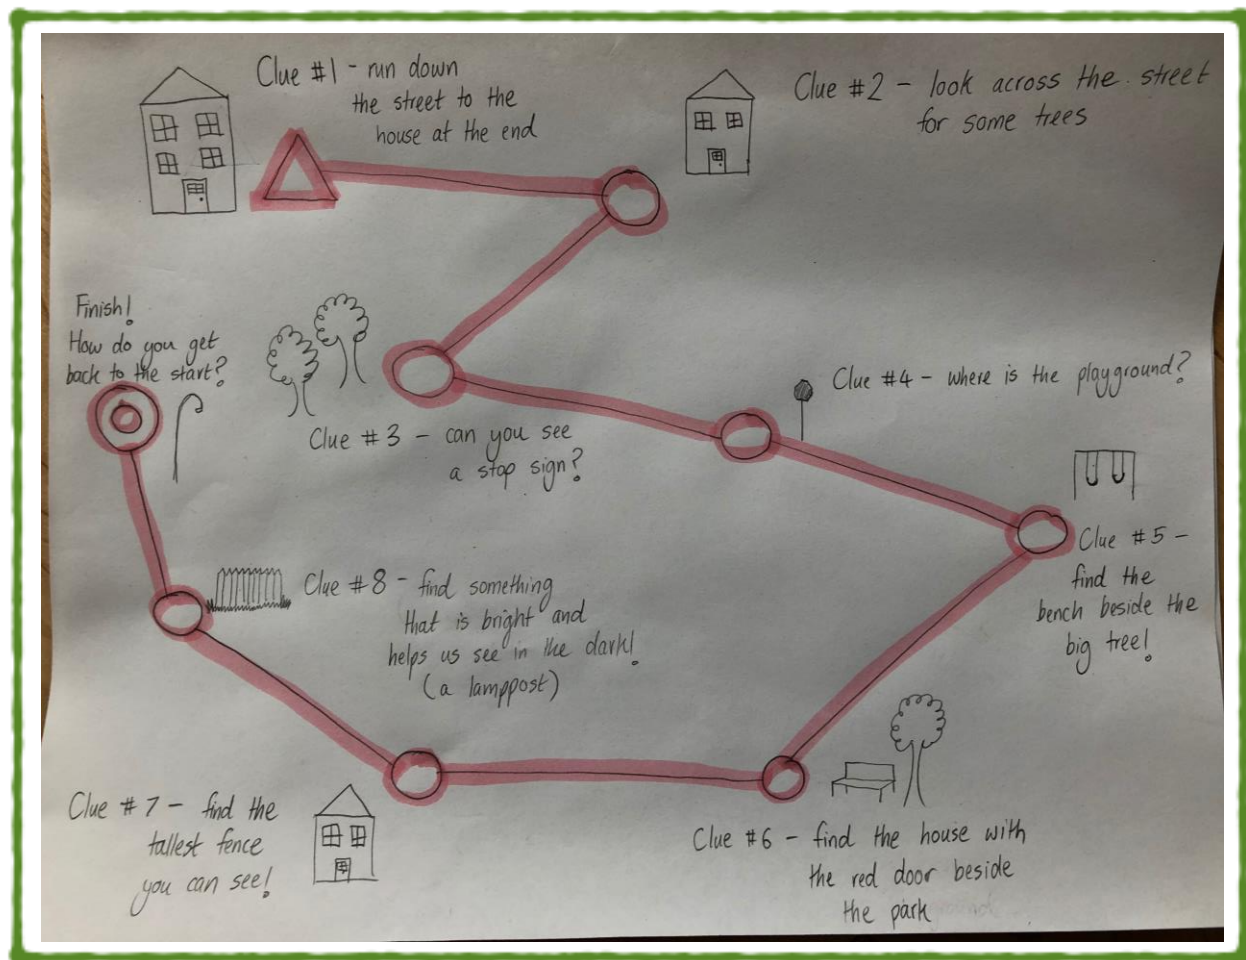

Where do you do this activity?

Don't forget to colour it in!

Orienteering With Friends!

We can't see our friends right now, so this week's challenge is to make them a scavenger hunt that they can do themselves! You can do this around your neighbourhood or in a local park. Draw a map and make some clues. Drop the map in your friend's mailbox for them to follow. There's an example on this page, and a blank map on the next page for you to print out and draw on. Help everyone get outside and explore!

Do you remember what the "start" is on our map? A triangle!

What about the finish? A double circle!

What about the checkpoints? Those are single circles.
