

SOGO Squirts Week 3

C is for Camping and Camouflage!

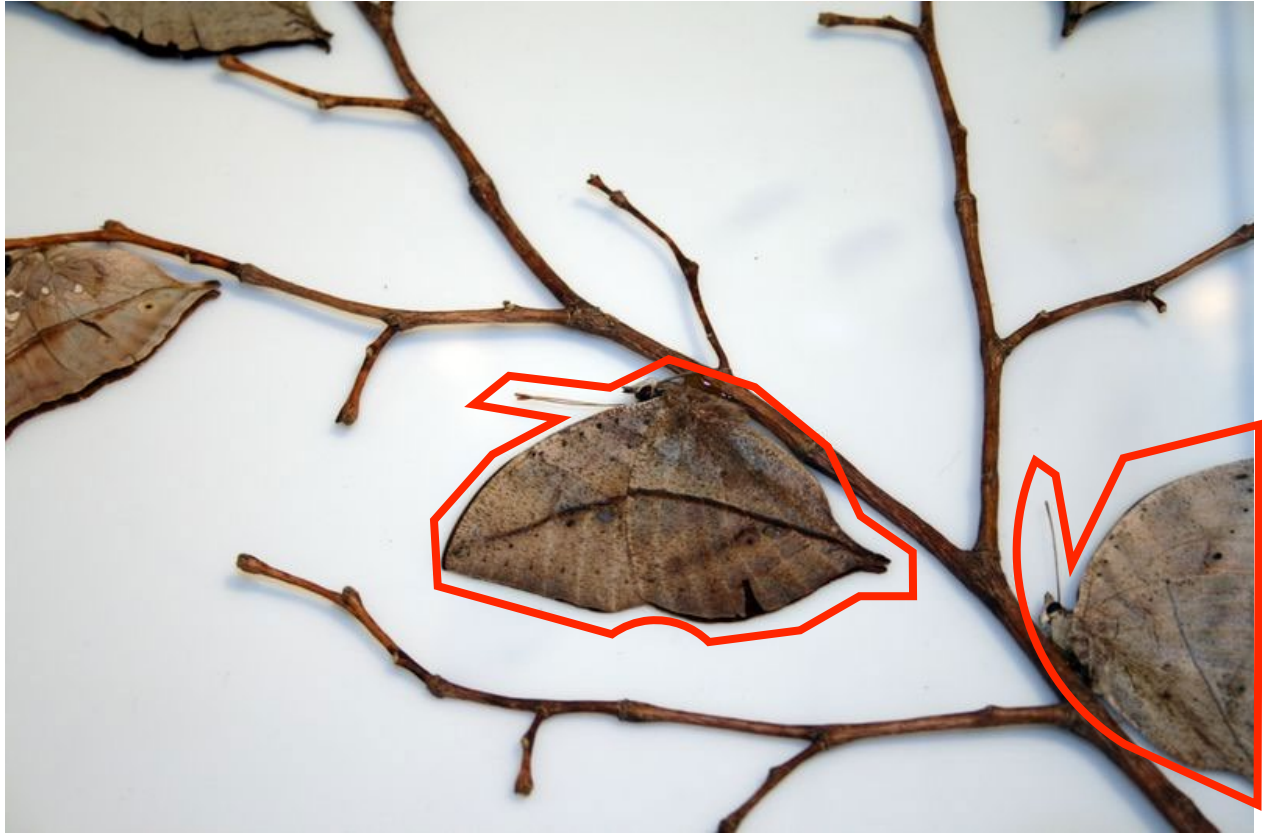

Colour in the picture!

Do you know what **camouflage** is?

Camouflage means a disguise. Animals camouflage by blending in with their surroundings. Can you see the butterflies in the photo below? They are camouflaged or disguised as a leaf so that other animals can't see them.

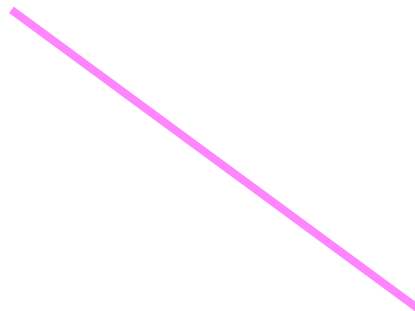

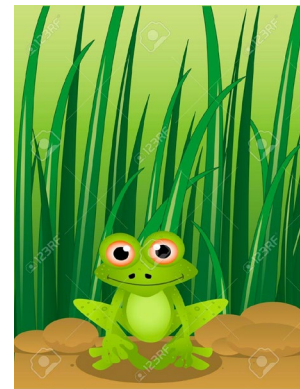

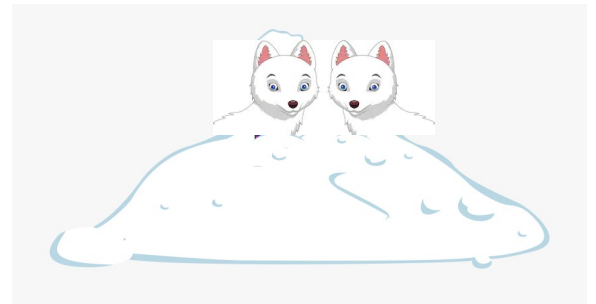

Here are the butterflies!

Match the animals to their camouflage.

The first one has been done for you!

Adventure Challenge!

Texture Walk

Take your list and go on a walk around your house
to see if you can find:

Something bumpy

Something smooth

Something red

Something bigger than your hand

Something round

Something scratchy

Something warm

Something cold

Something hard

Something soft

Let's Go Camping!

Go hiking and camping in your living room!

Can you build a fort in your living room or bedroom? How many walls does your tent have? How many entrances are there? Do you have a secret password to get into your tent?

Let's Go Hiking

To get to your tent, set up a hiking trail through your house by making an obstacle course. You could put pillows on the floor like stepping stones, have people jump over stuffies or clothes like they're fallen down tree logs. Can you make a maze or a trail using tape?

Will it be a hard or an easy hike to get to your tent?
